

The African Passion International(TAP)

Inspiring, Educating, and Empowering
the next Generation

ELWA, Monrovia, Liberia

+971566049581

Who we are

We build cordial relationships with the best institutions around the globe and we assist students to make the right choice with regards to pursuing education in overseas educational institutions.

Pillar of TAP

Leadership

- Leadership is the ability to inspire, motivate, and guide others to achieve a shared vision or goal.
- Effective leaders possess skills, traits, and qualities that enable them to influence and empower others.
- Vision, communication, and emotional intelligence
- Decision-making, adaptability, resilience
-
- Education is the process of learning and acquiring knowledge, skills, values, and habits.
- It is vital to human development, helping individuals reach their potential and contribute to society.

Empowerment

- Personal empowerment focuses on individual growth, self-awareness, and self-empowerment.
- Social empowerment: emphasizes community development, social justice, and collective actions.
- Economic empowerment: concentrates on financial stability, entrepreneurship, and economic independence

Advocacy

- Individual advocacy: supporting a single person or family to access services, benefits, or justice.
- Systemic advocacy: working to change policies, laws or regulations.
- Community advocacy: organizing and mobilizing community members to take action on issues.
- Policy advocacy: influencing government policies, laws, and regulations to promote social change.

Development

Development refers to the process of growth, improvement, and expansion of individuals, communities, organizations, or societies. It involves the acquisition of new skills, knowledge, and experiences that enable individuals or systems to adapt, evolve, and thrive

Working scope of TAP

1.(50%) educational program for primary and secondary schools.

The program is aimed at reducing, alleviating, and breaking the barriers of parents who are not financially able to put their children in school through collaborative efforts with TAP and institutions in eradicating such problems. Onwards, these institutions that see faith to collaborate with TAP on the educational policy will benefit every year a selection of scholar based on merit, along with shared financial responsibility of international scholarship between TAP, the institution, and the child's parents.

To achieve this remarkable initiative, we ask all primary and senior secondary institutions to join us on this journey of educational inclusivity.

CEO meeting with Partners

2. International Student Scholarship

For us, we believe that education is the most important tool used to improve any society, which has no limit to Liberia's growth. International scholarship can benefit students of Liberia in numerous ways. We deal with fully funded and partially funded academic scholarship programs

Access to quality education, studying abroad provides Liberia's students with top-ranking universities worldwide, exposing them to diverse teaching methods, research opportunities, and academic

3. Students International Immersion Program

We deliver excellence in connecting both Liberia's students and our partnering universities with an international immersion. program geared towards cultural exchange. living and studying for a week or two courses, exploring historic, tourist attractions, and governmental institutions, which will develop cross-cultural cooperation and adaptability, and communication skills, broadening their perspectives and worldviews. Also, our international immersion program seeks to improve career advancement, it entails retiring to Liberia and respective countries. Recipients of this immersion program would apply their knowledge, skills, and networks gained abroad to drive positive change, contribute to national development, and excel in their careers! We deliver excellence and efficiency

4. Youth Employment Program

TAP is on the verge of bridging the gap between youth education and employment opportunities. Hence, the first step to achieving this milestone is to equip young people with the skills, training, and experience needed to secure employment. At long last, bringing an end to this old age problem is an imperative decision to safeguard the livelihood of youth

Our global vision

- TAP connects youth to global opportunities through education, empowerment, and innovation.
- We collaborate across nations, provide scholarships, and shape future leaders.
- TAP is not just a movement—it's a legacy in the making.
